GERMANY HAS DONE BEST

CONTEXT COVID-19 Weekly Report

GERMANY HAS DONE BEST

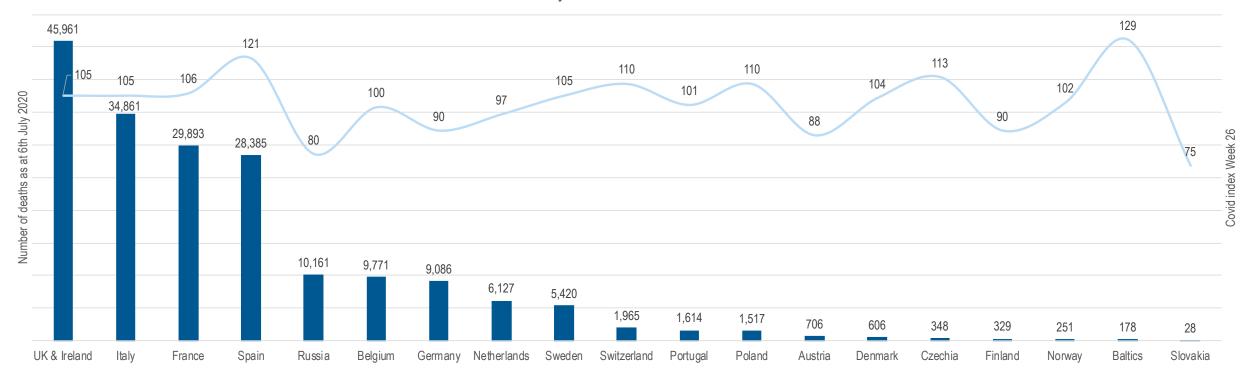

Reason	Description
Control	Cases under control. market demand stable since beginning of the pandemic and during pandemic till now
Consistency	Consistent shut-down, willingness on the part of the government to make large investments to revive the economy, short-time work compensation
Rapidity	Germany acted quick on the corona crisis and backed up especially the small and medium sized companies unbureaucratically.
Testing	Running COVID tests massively and driving health care in a correct way
Apolitical	The country where dealing with Covid was the least politicized.
Efficiency	They were more efficient dealing with the pandemic
Economy first	Prioritizing econimy.

NO CORRELATION BETWEEN COVID MORTALITY AND IT INDUSTRY PERFORMANCE

Covid mortality and CONTEXT Pandemic Index

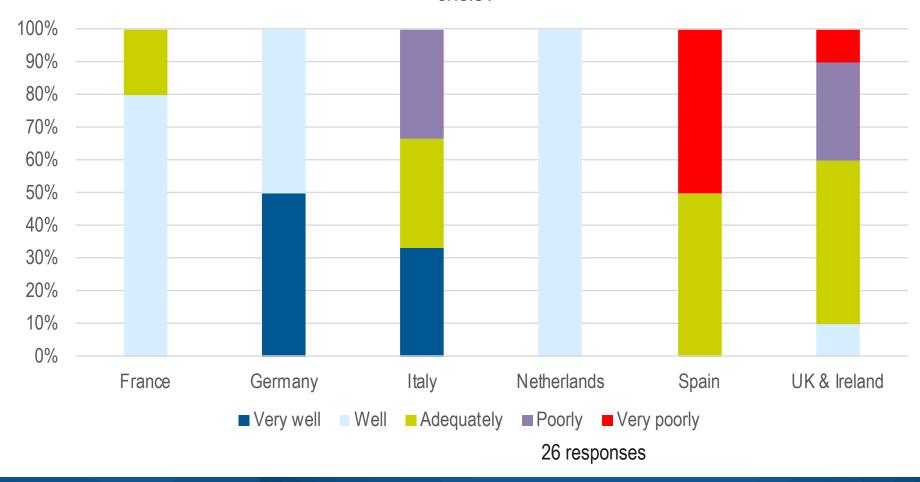

UK, ITALY AND SPAIN ARE TOUGHEST ON THEMSELVES

How successfully is your Government dealing with the impact of the Covid crisis?

UK, ITALY AND SPAIN ARE TOUGHEST ON THEMSELVES

Reason - UK	Description
Slow	Should have initiated lockdown earlier, and is rushing to reopen to early
No track and trace	Should have locked down quicker and implemented track and trace immediately.
Common sense	Too much reliance on "common sense" and not enough enforcement of rules.
Lack of clarity	slow decision. no clear information or direction.
Longest lockdown	In UK we have had the longest lockdown, the biggest economic impact
Mixed messages	UK: Mixed messages on the measures, slow reaction, equipment was not stocked in advance as advised several years ago, furlough scheme not thought through

Reason - Spain	Description
Too much left to individuals	Good and responsible management of lockdown but too much is left to the individuals. Wearing a mask is not mandatory and there is no control so less and less people is wearing it. Social distancing is not really enforced and as of today is not respected AT ALL by citizens.
Fragmentation	Spain is very fragmented into different parties at the congress. The división ys driving to pollitical interests rather tan the economy or population health
